A warm welcome to the City of London Crime Prevention Association

The City of London Crime Prevention Association (CoLCPA) has been in existence for more than forty years and facilitates a network of like-minded security professionals. It is a partnership between the City of London Police, the wider security community and all those involved with safety, security and emergency response.

This unique association offers monthly meetings with the latest terrorism and crime updates, as well as information on other threats and risks and the appropriate measures to mitigate them.

About 2021

We have planned a full, ambitious programme of meetings for 2021, with confirmed speakers and livery halls.

Given the current Covid-19 global pandemic, we are hoping for the best, but planning for the worst. If regulations in place at the time of each meeting mean we cannot meet in person, the meeting will be moved online as a video conference. We will try to maintain the same date and time for the meeting.

As you know, you can bring up to four guests to each CoLCPA meeting, be they from your company, clients or colleagues from other organisations. Please take advantage of this and encourage anyone from the broader security family, or anyone with an interest in the topic we are covering to join us for the meeting with a view to becoming a full member of the Association.

As usual, we will confirm the arrangements for the meeting one week beforehand.

Regular updates on the status of our meetings and full details of how to join are available on our website: www.cityoflondoncpa.org.uk.

Regular membership updates and news are posted on our [LinkedIn](#) company page.

Join us

We are currently welcoming new members with a range of benefits to include:

- A range of high-level updates from the City of London Police on crime and counter-terrorism issues
- A programme of regular events covering a range of current topics such as counter terrorism, security technology, cyber-crime, fraud, and business continuity, with specialist speakers who are experts in their respective fields
- The opportunity to network with like-minded security professionals
- Notification of events being held within the City of London that may affect the business and residential communities
- Subscription to City Security magazine
- Updates from the Cross-Sector Safety and Security Communications (CSSC).
