A warm welcome to the City of London Crime Prevention Association

The City of London Crime Prevention Association (CoLCPA) has been in existence for more than forty years and facilitates a network of like-minded security professionals. It is a partnership between the City of London Police, the wider security community and all those involved with safety, security and emergency response.

This unique association offers monthly meetings with the latest terrorism and crime updates, as well as information on other threats and risks and suggestions on measures to mitigate them.

Membership of the City of London Crime Prevention Association

Membership of the CoLCPA is open to organisations and individuals with an interest or involvement in improving safety and security for their organisation or community. Our current membership includes people from a range of organisations including financial, retail, managing agents, and hospitality.

The members of the CoLCPA are integral to its success and their continuing support is vital.

Arrangements for 2022 meetings

We have planned a full, ambitious programme of meetings for 2022, with confirmed speakers.

Given the ongoing Covid-19 global pandemic, we are hoping for the best, but planning for the worst. If regulations in place at the time of each meeting mean we cannot meet in person, the meeting will be moved online as a video conference. We will try to maintain the same date and time for the meeting. As usual, we will confirm the arrangements for the meeting one week beforehand.

You can bring up to four guests to each CoLCPA meeting, be they from your company, clients or colleagues from other organisations. Please take advantage of this and encourage anyone from the broader security family, or anyone with an interest in the topic we are covering to join us for the meeting with a view to becoming a full member of the Association.

Regular updates on the status of our meetings and full details of how to join are available on our website: www.cityoflondoncpa.org.uk.

Membership updates and news are also posted on our [LinkedIn](#) company page.
